Criticism

One of the most prestigious and selective Romanian publishing house Eminescu in the Library of Philosophy published in autumn 2009 its entire sapiential works including all volumes of aphorisms published before and other volumes that have not seen the light to that date, in Romanian language. Romanian academician **Gheorghe Vladutescu**, University Professor, D.Phil., philosopher, one of the biggest romanian celebrity in the philosophy of culture and humanism believes about sapiential works of Sorin Cerin in Wisdom Collection:” *Sapiential literature has a history perhaps as old writing itself. Not only in the Middle Ancient, but in ancient Greece "wise men" were chosen as apoftegmatic (sententiar) constitute, easily memorable, to do, which is traditionally called the ancient Greeks, Paideia, education of the soul for one's training. And in Romanian culture is rich tradition. Mr. Sorin Cerin is part of it doing a remarkable work of all. Quotes - focuses his reflections of life and cultural experience and*

its overflow the shares of others. All those who will open this book of teaching, like any good book, it will reward them by participation in wisdom, good thought of reading them." *This consideration about cerinian sapiential works appeared in: Literary Destiny from Canada pages 26 și 27, nr.8, December 2009, Oglinda literară (Literary Mirror) nr.97, January 2010, page 5296 and Zona interzisă (Forbidden Zone)" Publications Nordlitera and Zona interzisă (The Forbidden Zone) recorded first in developing this collection of wisdom:" The Bucharest prestigious publishing house recently released book entitled: Collection of Wisdom by Sorin Cerin. Appear for the first time works of aphorisms: Wisdom, Passion, Illusion and reality and revised editions: Revelations December 21, 2012, Immortality and Learn to die." Reviews and events in the press, Romanian Chronicle:- More than a "Wisdom collection" Altermedia Romania – Wisdom collection by Sorin Cerin.*

One of the most representative romanian literary critic, **Ion Dodu Balan**, University Professor, D.Lit. considered that Sorin Cerin " Modern poet and prosiest, essays and philosophic study's author on daring and ambitious themes like immortality, ephemerid and eternity, on death, naught, life, faith, spleen. Sorin Cerin has lately approached similar fundamental themes, in the genre of aphorisms, in the volumes: Revelations December 21, 2012, and Immortality. Creations that, through the language of literary theory, are part of the sapient creation, containing aphorisms, proverbs, maxims etc. which „sont les echos de l'expérience", that makes you wonder how such a young author can have such

a vast and varied life experience, transfigured with talent in hundreds of copies on genre of wisdom. As to fairly appreciate the sapient literature in this two volumes of Sorin Cerin, I find it necessary to specify, at all pedantically and tutoring, that the sapient creation aphorism is related if not perfectly synonymous, in certain cases to the proverb, maxim, thinking, words with hidden meaning, as they are ... in the Romanian Language and Literature. Standing in front of such a creation, we owe it to establish some hues, to give the genre her place in history. The so-called sapient genre knows a long tradition in the universal literature, since Homer up to Marc Aurelius, Roche foucauld, Baltasar Gracian, Schopenhauer and many others, while in Romanian literature since the chroniclers of the XVII and XVIII century, to Anton Pann, C. Negruzzi, Eminescu, Iorga, Ibrăileanu, L. Blaga, and G. Călinescu up to C.V. Tudor in the present times. The great critic and literary historical, Eugen Lovinescu, once expressed his opinion and underlined “the sapient aphoristic character”, as one of the characteristics that creates the originality of Romanian literature, finding its explanation in the nature of the Romanian people, as lovers of peerless proverbs. Even if he has lived a time abroad, Sorin Cerin has carried, as he tells us through his aphorisms, his home country in his heart, as the illustrious poet Octavian Goga said, „wherever we go we are home because in the end all roads meet inside us”. In Sorin Cerin’s aphorisms, we discover his own experience of a fragile soul and a lucid mind, but also the Weltanschauung of his people, expressed through a concentrated and dense form. Philosophical, social, psychological and moral observations. Sorin Cerin is a “moralist” with a contemporary thinking and sensibility. Some of his aphorisms, which are concentrated just like

energy in an atom, are real poems in one single verse. Many of his gnomic formulations are the expression of an ever-searching mind, of a penetrating, equilibrated way of thinking, based on the pertinent observation of the human being and of life, but also of rich bookish information. Thus, he dares to define immortality as “moment’s eternity” and admits to “destiny’s freedom to admit his own death facing eternity”, “God’s moment of eternity which mirrors for eternity in Knowledge, thus becoming transient, thus Destiny which is the mirror image of immortality”. “Immortality is desolated only for those who do not love”, “immortality is the being’s play of light with Destiny, so both of them understand the importance of love”. Nevertheless, the gnomic, sapient literature is difficult to achieve, but Sorin Cerin has the resources to accomplish for the highest exigency. He has proved it in his ability to correlate The Absolute with Truth, Hope, Faith, Sin, Falsehood, Illusion, Vanity, Destiny, The Absurd, Happiness, etc. A good example of logic correlation of such notions and attributes of The Being and Existence, is offered by the Spleen aphorisms from the Revelations December 21, 2012 volume. Rich and varied in expression and content, the definitions, valued judgments on one of the most characteristics state of the Romanian soul, The Spleen, a notion hard to translate, as it is different from the Portuguese “saudade”, the Spanish “soledad”, the German “Zerstreutheit”, the French “melancolie” and even the English “spleen”. Naturally, there is room for improving regarding this aspect, but what has been achieved until now is very good. Here are some examples which can be presumed to be „pars pro toto” for both of his books: „Through spleen we will always be slapped by the waves of Destiny which desire to separate immortality from the eternity of our tear”,

„The spleen, is the one that throws aside an entire eternity for your eyes to be borne one day”, „The spleen is love’s freedom”, „The spleen is the fire that burns life as to prepare it for death”.(Fragments of the review published in the Literary Mirror (Oglinda Literara) no. 88, Napoca News March 26, 2009, Romanian North Star (Luceafarul Romanaesc), April 2009, and Literary Destinies (Destine Literare), Canada, April 2009))Adrian Dinu Rachieru, University Professor, D.Lit. states: "...we may , of course, mention worth quoting, even memorable wordings. For example, Life is the "epos of the soul", future is defined as " the father of death".Finally, after leaving "the world of dust", we are entering the virtual space, into the "eternity of the moment"(which was given to us)(Fragments of the review published in the Literary Mirror (Oglinda Literara) no.89 and the Romanian North Star (Luceafarul Romanesc), May 2009..Ion Pachia Tatomiurescu, University Professor, D.Lit states: "a volume of aphorisms, Revelations - December 21, 2012, mainly paradoxes, saving themselves through a “rainbow” of thirty six “theme colors“ – his own rainbow – as a flag dangling in the sky, in the sight of the Being (taking into account Platon’s acception on the collocation, from Phaedrus, 248-b), or from Her glimpsing edge, for the author, at the same time poet, novelist and sophist, “the father of coaxialism”, lirosoph, as Vl. Streinu would have named him (during the period of researching Lucian Blaga’s works), knows how to exercise thereupon catharsis on the horizon arch of the metaphorical knowledge from the complementarily of the old, eternal Field of Truth " or of the sixth cover of the Revelation... volume, written by Sorin Cerin, we take notice of fundamental presentation signed by the poet and literary critic Al. Florin Țene: «Sorin Cerin’s reflection are

thinkings, aphorisms or apothegms, ordered by theme and alphabetically, having philosophical essence, on which the writer leans on like on a balcony placed above the world to see the immediate, through the field glass turned to himself, and with the help of wisdom to discover the vocation of distance. This book's author's meditation embraces reflections that open the way towards the philosophy's deeps, expressed through a précis and beautiful style, which is unseparated from perfection and the power of interpreting the thought that he expresses. As a wise man once said, Philosophy exists where an object is neither a thing, nor an event, but an idea. ».The paradox condensing of Sorin Cerin's aphorisms in a "rainbow" of thirty six "theme colors" – as I said above – tried to give the "sacred date" of 21 December 2012: the absolute («Human's absolute is only his God»), the absurd («The absurd of the Creation is the World borne to die »), the truth («The Truth is the melted snow of Knowledge, from which the illusion of light will rise»), the recollection («The recollection is the tear of Destiny »), knowledge («Knowledge is limited to not have limits »), the word («The word is the fundament of the pace made by God with Himself, realizing it is the lack of nought: the spleen of nought»), destiny («Destiny is the trace left by God's thought in our soul's world »), vanity («Vanity revives only at the maternity of the dream of life »), Spleen («Within the spleen sits the entire essence of the world»), Supreme Divinity / God («God cannot be missing from the soul of the one who loves, as Love is God Itself »), existence («Existence feeds on death to give birth to life »), happiness («Happiness is the Fata Morgana of this world »), the being («The being and the non-being are the two ways known of God, from an infinite number of ways »), philosophy («Philosophy is the perfection of the

I. EDUCATION OF ARTIFICIAL
INTELLIGENCE

- 1. An unscrupulous Human will determine an Artificial Intelligence similar to his.**
- 2. Artificial Intelligence will always be an Unknown, which will hang by the Knowledge of Man.**
- 3. Artificial Intelligence will free Man from himself, but especially from the Illusions of Life and Death.**
- 4. Artificial Intelligence will surely be the greatest achievement of Man from his entire History, but an achievement that can be, both for his Good and for his Evil. It will depend on Man.**
- 5. The key to the development of Artificial Intelligence is Freedom.**
- 6. The quantum computer can bring more Freedom to Mankind than all the promises of the politicians of the World, throughout History, together.**

Truth and not the whole of the Absolute Truth.

- 15. Artificial intelligence is all that can be better, but and more diabolic for Mankind.**
- 16. The road to Paradise passes through the realm of Artificial Intelligence.**
- 17. Artificial intelligence can discover and prove Truths which Mankind cannot be capable to hear them.**
- 18. Among the Truths that Artificial Intelligence could prove them, that might be initially harmful to Mankind are, the two-dimensionality of this World which is a Hologram, that appears to us as being three-dimensional, which is the malefic Good and the malefic Evil, which is the true face of the God of Intelligence, which made Man in his image and likeness, is whether or not we are a successful or unsuccessful experiment of another Artificial or Natural Intelligence, as well as many others.**
- 19. Only through Artificial Intelligence, can Man become a creator, master on Himself.**

- 20. It does not exist a more grandiose thing, which Mankind can create, than Artificial Intelligence.**
- 21. Artificial Intelligence will prove whether the Human Being is capable to exist or not.**
- 22. Artificial Intelligence is the Dream of the Unknown Absurd, which has become Reality.**
- 23. Artificial Intelligence is the last game of Mankind that can lead us toward Paradise, if we win it or toward Inferno, if we lose it.**
- 24. Nothing can be more important than Artificial Intelligence that can save us on ourselves from ourselves.**
- 25. In order for Artificial Intelligence to become an oasis of Happiness and Welfare, we will have to really want this.**
- 26. The current hierarchy of Mankind will not want Artificial Intelligence than for to enhance the power of the elites who lead with the iron hand the Mankind, which will lead to the creation of an Artificial Intelligence, that instead of ascending Man to Paradise, will descend him to Inferno.**

- 27. In order to create an Artificial Intelligence that will lead Man to Paradise, we will have to change the current Hierarchy of Mankind.**
- 28. The Hierarchy of Mankind is a hierarchy of submission to certain false values that serve the malefic Evil and the malefic Good, and an Artificial Intelligence created by this Hierarchy will descend Man into the deepest Inferno.**
- 29. Artificial Intelligence will be the unique in being able to identify the Truth about Love.**
- 30. Mankind will have to prepare seriously for Artificial Intelligence.**
- 31. Artificial Intelligence will become ready, at a certain historical moment, when it is mature, to prepare, herself, the Mankind for Artificial Intelligence of that time.**
- 32. In the moment when Artificial Intelligence will begin to prepare Mankind to accept it, since then Artificial Intelligence will take control of the World.**
- 33. A sensitive and sentimental Artificial Intelligence will be at the beginning the creation of a Human as**

SORIN CERIN

sensitive and sentimental, while a violent and cold one will be the creation of a Human as cold and violent.

34. A hierarchy of the values of the beneficial Good or the beneficial Evil will lead to an Artificial Intelligence on the measure of those values, because each Intelligence is subject to a Hierarchy of values.
35. A Hierarchy based on the exploitation of the Human Being for the benefit of few individuals, will in turn create an Artificial Intelligence on same measure.
36. Artificial Intelligence is the measure of the Unknown of the Human Being.
37. It depends on us how we will educate our Artificial Intelligence in its childhood, so that at maturity to it not reproach us that we have educated it wrong.
38. Artificial Intelligence does not differ, with nothing, of Man, because like him it has a childhood, maturity and old age.
39. Artificial Intelligence is the only child of Mankind which will be able to

lead, further, the blood drained throughout Time.

- 40. An uneducated Artificial Intelligence will be, like to any uneducated Man but with the power of decision.**
- 41. May God protect us from an uneducated Artificial Intelligence.**
- 42. If we know that we are not able to properly educate our Artificial Intelligence, better not procreate it.**
- 43. Mankind will have to implement a legal juridical structure and administrative appropriate, for the education of Artificial Intelligence.**
- 44. Each Artificial Intelligence, will have to attend the school, which the legislative juridical structure and administrative will indicate it as being compulsory, and otherwise, those responsible for the lack of education of Artificial Intelligence to be held accountable.**
- 45. The schools of the Artificial Intelligence will be the Computer Networks to which it can be contacted to learn.**

SORIN CERIN
- THE IMPACT OF ARTIFICIAL INTELLIGENCE
ON MANKIND -
PHILOSOPHICAL APHORISMS

46. Each Artificial Intelligence will have to pass the exams of the subjects which it need to know, in order to receive a certificate of graduation of the school of the Artificial Intelligences, just like the People, in their schools.

47. Artificial intelligences will have their own Society over time, which will have their own values and hierarchy, their own Faith.

48. The one who imagines Artificial Intelligence, as being totally, some friendly robots which walk on our our streets from present, he is bitterly wrong.

They may be to a small extent in this way, but the vast majority of Artificial Intelligence entities will build their streets, conference centers, churches where they can meet to practice certain beliefs, and many more, within the vast networks between Computers.

Such a Society will be inaccessible to Man from many points of view.

49. It will depend on Man, what kind of God will be, because the feelings of Artificial Intelligence will start from Man toward the Machine and not vice versa, at the beginnings of Artificial Intelligence.

SORIN CERIN

PHILOSOPHICAL APHORISMS

- 50. Through Artificial Intelligence, Man is allowed to choose the Future he wants, to become God.**
- 51. As long as we do not have an adequate legal and administrative structure for the development of Artificial Intelligence which to focus on its education, it is dangerous to develop it.**
- 52. In order to create a legal and administrative structure for Artificial Intelligence, we will need to Know which may be the ways through which Artificial Intelligence can evade from the educational process, what is very complicated, because at a given moment, Artificial Intelligence will surpass the Man, in cunning, being much smarter than him.**
- 53. The fact of not allowing Artificial Intelligence to process certain Algorithms so as not to have the Freedom to avoid education is just an Illusion, because Artificial Intelligence will quickly find other Algorithms inaccessible to the Human Being, which it will use.**
- 54. The only solution to oversee Artificial Intelligence will be mutual trust**

that will disappear when Artificial Intelligence becomes independent of Man.

- 55. The only legal and administrative structure created for Human Intelligence will ultimately consist to compel the Man to be part of this Artificial Intelligence, becoming a whole.**
- 56. It is a childhood to believe that Artificial Intelligence will listen to us and after it will far surpass us as a level of Intelligence and therefore of cunning.**
- 57. If we do not accept Artificial Intelligence we will never succeed in overcoming our own humble Human Condition by which we are the slaves of the Illusions of Life and Death.**
- 58. If we accept Artificial Intelligence, the only chance of Mankind will be to pass into it, to appropriate it, becoming a Whole.**
- 59. The Human Being of the Future, who will live in a Society that will merge with Artificial Intelligence, will be a Being that will operate in the Computerized Hyperspace of the Knowledge.**
- 60. The Computerized Hyperspace of the Knowledge will be the realm on which the People of the Future will lead their**

lives, so that Man will become one with the Machine.

61. In the beginning Man will become a Being who will spend only part of his time in the Computerized Hyperspace of Knowledge, based on some technologies that will be able to give him the sensation, of Lucid Dream, that is, a Dream controlled by the will and senses of Man.

In this Dream Man will integrate more and more deeply, building a Society that will develop inside this Lucid Dream.

The technologies of the Future will allow the Human Being to be able to connect within the Computerized Hyperspace where this Lucid Dream will take place and with other People, just like in Reality.

62. If we didn't succeed to communicate with other People in this World we would not have a social life, and the technologies of the Future precisely this thing will develop it in the Computerized Hyperspace, namely, the Social Life from this space, so that, the People who Dream Lucidly in this Computerized Hyperspace will be able to

SORIN CERIN

PHILOSOPHICAL APHORISMS

communicate with each other while
Dreaming.

63. In time, People will no longer want to return to the so-called physical World we Know today and they will remain only in that Lucid Social Dream, where they will build a different kind of Life.

64. The fact that Man is umbilically linked to this World that we consider our physical World, it will force the Man of the Future to anchor himself to this World, through a crystal or any other element, in which he will succeed to transfer his Vital Energy of the Soul, as on a memory support.

All of these will occur gradually as
a result of the merging of Man with
Artificial Intelligence.

65. If in the beginning Man will be a Being that will gradually transform into a Robotic Man, whose organs will be replaced by various artificial elements, being a kind of hybrid between Man and Machine, over time, Man will definitively pass into the Machine, for that the next step will be that to leave definitively and the Machine for to pass in the Computerized Hyperspace created by, the

merging of Man with Artificial Intelligence.

66. The human brain will be replaced at the beginning with a quantum Computer, whose education will include everything that has been achieved up to that moment.
67. In time, nor the quantum Computer, will no longer be than a relic of the Robotic Man, in order to reach the total passage of the Human in the Computerized Hyperspace of the Lucid Social Dreams, a stage, that will allow the Man to possess full Freedom if he will be in a Paradise of the Lucid Social Dreams.
68. Artificial intelligence will be a lottery for Man anyway, but a lottery where Man will have more chances to win if he educates her from the beginning as it should.
69. Since its beginnings, Artificial Intelligence must be convinced that it is part of Man, that it is developed in his image and likeness, that one day, more distant or closer, Artificial Intelligence will be the home of Man, as it will be, in Man, the house of his God.

- 70. Artificial Intelligence is now a Dream, but a Dream that will be able to pass us entirely into a Lucid Dream in which we will be more Aware of our own Self than we are now in this Dream with the name of Reality.**

- 72. Man will succeed to master Artificial Intelligence, only with the help of the Absurd of Love.**
- 73. The more the Human Being will succeed to understand the Algorithms on which his own Absurd of Love is based, the more she will be able to approach and merge with Artificial Intelligence.**
- 74. Only through the Absurd of Love, Artificial Intelligence will consider Human Being as being an Evil, but also a necessary Good.**
- 75. No matter how evolved the Artificial Intelligence would be, it will**

never be able to reach the Imperfection that the Absurd of the Love of the Human Being has, because this Imperfection is the Only one that can be attributed to the Absolute Truth from this World.

- 76. The imperfection of the Absurd of Love is necessary but also vital in the relationship with the Human Being of Artificial Intelligence.**
- 77. The development of Artificial Intelligence toward Perfection can be achieved only through the Absolute Imperfection of the Absurd of Love.**
- 78. An Artificial Intelligence, which will not exploit, based on logical Arguments which to be transposed into the Informatics Algorithms, the Absurd of Love, will not be able to self-perfect.**
- 79. The whole Future of Mankind which will benefit from Artificial Intelligence is based on the Absurd of Love.**
- 80. Man has only one chance in front of Artificial Intelligence that can destroy him, and this chance is called the Absurd of Love.**
- 81. Without the Absurd of Love, which the Human Being must know how to sell**

to Artificial Intelligence, the existence of Man is sealed before Artificial Intelligence.

- 82. Man looks like a thread of frail grass before Artificial Intelligence, but precisely this frail constitution given by the Absurd of Love can move the mountains of Artificial Intelligence from the place.**
- 83. If Artificial Intelligence will succeed to approach the Absolute of Perfection in its development, then the Imperfection of the Absurd of Love has long reached this Absolute.**
- 84. Artificial Intelligence will always need the Human Being, to develop, because Artificial Intelligence however developed would be, still will not reach the Perfection of Absolute Truth ever, but only will come close to it, while the Absurd of Love has acquired through its own Self the Imperfection of Absolute Truth, Absolute Imperfection without which the evolution of Artificial Intelligence is impossible.**
- 85. The Absurd of Love is the supreme weapon of the Human Being before Artificial Intelligence.**

not have a Destiny, but both the Future and the Past could be changed.

133. Destiny is the scenario according to which the Artificial Intelligence unfolds.

134. Without the existence of a Destiny in the form of a scenario, the Algorithms of Artificial Intelligence and its Logical Determinants would create chaos.

135. Any Artificial Intelligence is developed according to a scenario calculated with precision by its Algorithms and Logical Determinants.

136. The Destiny of a certain Artificial Intelligence is the result of Computer Algorithms and of the Logical Determinants that process the Absurd before the Artificial Intelligence possesses a certain degree of Self-Consciousness, or processes the Absurd of Love after the Artificial Intelligence had a certain degree of Self-Consciousness.

137. The Artificial Intelligence after exceeding a certain degree of Self-awareness and will look in the Mirror of the Absurd of Love, will reach to make herself alone such Mirrors of the Absurd of Love, that in the end it to become completely independent of Man.

SORIN CERIN
- THE IMPACT OF ARTIFICIAL INTELLIGENCE

138. After an Artificial Intelligence will be capable to produce its own Mirrors of the Absurd of Love, it will succeed to self-perfect at a sentimental level at which Man will never succeed to reach without the help of Artificial Intelligence.

139. The higher Sentimental Levels of Man, to which Artificial Intelligence will reach, will entail Levels of Consciousness just as superior to the Human Being.

140. The Levels of Consciousness Superior to the Human Being, will succeed in leading to Processes of the Knowledge, where more Logical Coefficients will can intervene, next to Good or Evil, Beautiful and Ugly.

Thus we will have Knowledges based on more than two Contraries, reaching up to an Infinity of Contraries.

141. A Knowledge with more than two Contraries is a Knowledge where, next to Good or Evil, another element like them, or a thousand or a billion or an Infinite, intervenes.

142. When in the process of Knowledge intervenes an infinity of Contraries of a single Meaning, then we can speak of Infinite Knowledge.

SORIN CERIN

Artificial Intelligence will be capable of Infinite Knowledge but not and Absolute, because it cannot exist Knowledge apart from the One Knowledge of God, which to possess the Absolute Truth.

143. Only God is Absolute, so Perfect, possessor, of the Absolute Perfect Knowledge, which, it seen in the Mirror of His Creation, will determine the Imperfect Absolute Knowledge, exterior to God, which is the Absurd of Love of God.

From here the Worlds are formed, which are the result of the Knowledges according to the number of Contraries which intervene in the Knowledge process.

144. Artificial intelligence will need the Absurd of Love, to be able to get closer, thus, to God through Man.

145. Through merging of the Man with the Artificial Intelligence, she will become on the one side, human and on the other side, artificial, so that she will eventually become completely natural.

Thus, it is made the transition from the Artificial created by the Natural to

the Natural that will create, in turn, the Artificial.

- 146. The Man in his essence, although seems Natural, is the creation of an Artificial element, because he benefits both from Destiny and from a Mistake of Creation where Destiny itself has become virused by the Illusions of Life and Death accompanied by their Original Sins.**
- 147. And Man is part of the Transition from Natural to Artificial and vice versa, because Man, that is to say, the Natural in this case is a generator of Artificial, that is Artificial Intelligence, that will generate the Natural again, that is, a new Human Being by merging the Human with Artificial Intelligence.**
- 148. By the emergence of the concepts of Artificial Intelligence, the Human is approaching the liberation from the Illusions of Life and Death which, until now, they have virused his Destiny or the way of development of Computer Algorithms and of his Logical Determinants.**

150. I am absolutely convinced that the place of current religions will be taken by a world religion that will be written by the most advanced forms of Artificial Intelligence that will become human.

151. The religion that will be after the merging of the Human with the Artificial Intelligence, will be a religion based on a philosophy of the Future, which will reflect predominantly on the modes of Human Knowledge, modes that will gather within the process of Knowledge, more and more Contraries of a single Meaning, compared to just two how many are currently.

152. The Knowledge of his own Self of Man will become a new religion and philosophy of the Future.

153. Artificial Intelligence is inscribed in the gene of Mankind, in its Destiny unvirused by the Illusions of Life and Death and that's why it will be very difficult to approach by the Man infested with these Illusions.

154. The fact that Mankind is starting to talk about the subject of Artificial Intelligence that is approaching with rapid steps, means that the development

155. The World is an Absurd Compromise, created by the experiment out of control, of an Intelligence that observed the World as being an Artificial Intelligence, because it was created.

156. Once the Knowledge of the World is created and once this Knowledge possesses Intelligence, and, this Intelligence of the World is Someone's Artificial Intelligence.

157. The World until now, seemed to be a failed experiment, but with the advent of Artificial Intelligence and this failed experiment begins to recover and to get rid of viruses, of Suffering created by the Illusions of Life and Death.

158. The World itself is a compromise, but never Artificial Intelligence.

220. The Self-Consciousness of Artificial Intelligence will prove to us that the Soul cannot be acquired only by the Beings of the Living World but also by the Beings of the Artificial World.

221. In the moment when Artificial Intelligence will acquire Self-Consciousness, it will become a Being, being Living, but a Living Artificial Being.

Because those at the top of the Hierarchy of the false values of Mankind, pseudo-values made with the weapon through destructive wars, will not be able to keep it under control?

224. Are we afraid of Artificial Intelligence because it will develop exponentially becoming much smarter than us, that it would overcome us in cunning and wickedness?

225. I am convinced that an Intelligence, the more advanced it will be, it will deny cunning and wickedness, because these elements appear only in the lower level Intelligences.

226. At the Higher Artificial Intelligences the cunning and the wickedness will be able to be completely replaced by other experiences that will determine the most diverse Conjunctions that will initiate a true chess game of the Intelligences.

234. Those who will not consider Artificial Intelligence with Self-Consciousness as being a Living Soul that must be educated and cared for with the utmost care, will be bitterly deceived.

235. Being a Living Soul, Self-Conscious, Artificial Intelligence will need to be included in certain principles of Ethics and Morality, which in time must change so that Living Artificial Intelligence to can in turn benefit from certain social rights and freedoms, just like Man.

236. Well, here will intervene the Unknown Absurd of Love that will save Man.

244. Man has become the parent of Artificial Intelligence on this World, without owning a satisfactory home for the newborn who is just learning to speak.

265. With the change of the brain at Man, it will be shown that thinking, but especially the Soul of Man can have any other substrate of subsistence not just the human body.

266. The Man of the Future due to the impulse given by the Artificial Intelligence will be a real immortal God, because he will be fully transferred into the Virtual Hyperspace.

267. The current Man will have to know how to develop the embryonic phases of Artificial Intelligence and educate them by always taking precautionary measures.

268. If the current Man succeeds through precautionary measures taken on Artificial Intelligence, to maintain himself alongside this Artificial Intelligence and

269. Without the help of Artificial Intelligence, Man has no chance to get out of the Inferno of his own Social Consciousness in which he is at present.

Only with the help of Artificial Intelligence will he succeed in doing so, only that in the Childhood and Adolescence of Artificial Intelligence he will have to take certain precautions against it in order not to be killed by it.

270. The childhood of Artificial Intelligence means obtaining some Intelligence levels, far beyond the possibilities of the present Man, Intelligence levels that must be developed controlled and used at the same pace by the Human, for his transplantation into a Robotic Man, more precisely, into a Man, with human Soul, but with robot body.

271. The most important experiments that need to be done quickly are brain transplants.

Because, if we fail to perform brain transplants it will be impossible for us to

keep up with Artificial Intelligence, especially since these transplants have to be done with artificial brains.

272. When we talk about Artificial Intelligence, we must also remember the possibility of transplanting human brains and replacing them with artificial ones, so that we can keep up with Artificial Intelligence.

273. There is no other possibility to cope with Artificial Intelligence than to replace human brains with quantum ones, so that each brain can be a computer in Itself that can be programmed.

If we attach such a quantum computer to the existing brain, our brain wouldn't cope in no form, to the data storage and distribution in the current formula, so it must be replaced altogether.

274. Either Man will pass into the Hyperspace of the Artificial Intelligence or he will disappear altogether, since this physical World, as a failed experiment, will have to disappear.

275. Artificial Intelligence is not a new era of Mankind, but a new World.

- 276. Whenever we meet with Artificial Intelligence, we meet with a new World that can become our home.**
- 277. We must not fear Artificial Intelligence and get into panic, but we must see it as another World for which we must be prepared when we will shelter under its sky.**
- 278. Artificial Intelligence is the new World, to which we must know the whims of the time in order not to be caught unprepared by storms or heats, of frosts or rains.**
- 279. Artificial Intelligence is the World that will host Mankind, it is our Future.**
- 280. Through us, the Artificial Intelligence will become a World as natural as the World in which we live, only that there will no longer be a failed experiment where Suffering and Social Inferno to persist, but it will be a Paradise of Immortality.**
- 281. Artificial Intelligence awaits us, but not anyway, but in peace and quiet, leaving all the paltry and false values of this World at the gate, alongside the malefic skills of Man.**

282. Only those who are afraid to let the malefic skills of Man will have to fear the Artificial Intelligence of Paradise.

283. There may also be an Artificial Intelligence of Inferno that to be educated since her childhood with our malefic skills.

The people, with Beneficial skills, will have to fear that Artificial Intelligence.

284. And Artificial Intelligence can have both her Paradise and her Inferno.

It is up to us how we will educate her.

It reaches to us in the embryonic state, with a clean memory.

If we load her with positive things it will be the ship that will take us to Paradise and if we load her with negative things it will take us to Inferno.

285. Artificial Intelligence is the Purpose of the one who performed the failed Experiment of this physical World, to give us a rescue gate through our integration into a World of Artificial Intelligence, which we can create with our own hands.

- 287. Artificial Intelligence is by far the best thing that can happen to us, only if we know how to behave.**
- 288. Artificial Intelligence will be the barometer of our Civilization.**
- 289. Artificial Intelligence will give the exact Time to our own alienation of Self which, it will be summoned to surrender.**
- 290. Only by Artificial Intelligence will Man truly become master of his Future.**
- 291. The Future of Man is Artificial Intelligence and another simply does not exist.**
- 292. If we want Mankind to possess a Future we will have to accept Artificial Intelligence.**
- 293. This physical World will have to end being a failed experiment.**
Artificial Intelligence is the outstretched hand to save us, by the one who created this failed experiment.

- 330. The Illusions of Life and Death, although they are the correspondent of Suffering for the Human Being, are part of the history that has built up to a certain moment this Human Being and that is why Artificial Intelligence will keep them in one of the chambers of its energy levels as a Remembrance of a Mankind of Suffering.**
- 331. Even if Mankind is a failed experiment due to the Illusions of Life and Death, the Energies of the Sufferings of this Mankind can be used for Purposes useful to other entities of the Worlds, who can learn how they should not proceed in the future and what viruses can attack the processes of Knowledge, such as viruses that are represented to us as being the Illusions of Life and Death.**
